## for the following articles:

The LYCRA Company polyester staple and filament products made from polyethylene terephthalate (PET) in raw white, cationic and disperse dyed, optically whitened and black, including products with recycled content, infrared and silver based technologies or finished with biological active products accepted by OEKO-TEX® as well as elasterell-P and elastomultiester bicomponent filament yarn products made from polyethylene terephthalate (PET)/polytrimethylene terephthalate (PTT) in white and black, including products with recycled content; including products used for the following brands: COOLMAX® fibre, THERMOLITE® fibre, LYCRA® T400® fibre and LYCRA® dualFX® technology; produced by using materials certified according to STANDARD 100 by OEKO-TEX®.

The results of the inspection made according to STANDARD 100 by OEKO-TEX®, Appendix 6, **product class I** have shown that the above mentioned goods meet the human-ecological requirements of the STANDARD 100 by OEKO-TEX® presently established in Appendix 6 for baby articles.

The certified articles fulfil requirements of Annex XVII of REACH (incl. the use of azo colourants, nickel release, etc.), the American requirement regarding total content of lead in children's articles (CPSIA; with the exception of accessories made from glass) and of the Chinese standard GB 18401:2010 (labelling requirements were not verified).

The holder of the certificate, who has issued a conformity declaration according to ISO 17050-1, is under an obligation to use the STANDARD 100 by OEKO-TEX® mark only in conjunction with products that conform with the sample initially tested. The conformity is verified by audits.

**The certificate 17.HUS.27878 is valid until 31.12.2020**

Boennigheim, 17.01.2020
